

WHY VOTE?

Amplify the Vietnamese American voice in the political process.

The more Vietnamese Americans vote, the more candidates pay attention to the issues that impact the Vietnamese American population.

Exercise your right.

When you vote, you are exercising a right that people have died to defend, and we cannot take it for granted.

Shape the issues you care about.

Participating in the electoral process means choosing representatives who have your best interests in mind when making decisions that affect us all.
